\$1.50 PER YEAR.

CEDAR CITY, UTAH, FRIDAY, JULY 23, 1915.

5 CTS. PER COPY.

NUMBER 32.

NEWSY ITEMS FROM IRON COUNTY TOWNS

HAPPENINGS OF THE WEEK TERSELY TOLD BY THE RECORD'S CORPS OF WIDE-AWAKE CORRESPONDENTS.

Kanarra Plans Big Celebration—Newcastle Tunnel Nearing Completion—Many People Enjoy Outings—Enoch Happenings and Buckhorn Notes.

NEW CASTLE.

New Castle, Utah, July 19, 1915.
The tunnel for the new reservoir is nearing completion. Over half of the distance is already finished.

Mr. W. H. Adair is in Salt Lake, where he is attending to matters pertaining to his business.

The farmers are taking a breathing spell, now that the first cutting of hay is up. Something over six hundred tons were harvested in New Castle alone.

No, we are not dead. You haven't heard from us for a long time, but we are still fighting flies and following the shadow of the house to keep out of the boiling hot sun.

The Pinto people joined us in our Fourth of July celebration. A number of the people of this place went to Grass Valley and Pine Valley, where they could get away from the flies and enjoy the cool, fresh air, also feast on the mountain trout.

Mr. James Jacobson, Jr., passed through New Castle last Friday on his way to Pine Valley. He has been attending school in New York for the past three years. On his way home he took in the exposition at San Francisco.

ENOCH.

Enoch, Utah, July 22, 1915.
The heavy shower of yesterday, (Wednesday) was a welcome visitor to the dry land farmers.

The Misses Estella and Belle Jones are spending a few days on the Cedar mountains with the Webster family.

Frank Armstrong, in company with his father, Joseph Armstrong of Cedar City, has gone to Salt Lake City to see the Wizard of the Wastech.

Yesterday morning Morris Lyman of Parowan and Miss Leone Jones left for Enterprise, where they will visit for a few days with relatives and friends.

Miss Leone Jones entertained the C. C. Embroidery club last Thursday afternoon. Ice cream and dainty luncheon were served, and all present had a delightful time.

HALTERMAN-JONES NUPTIAS.

Last Thursday evening, the 15th inst., Mr. Millard Halterman of Parowan and Miss Jearl Jones were united in marriage at the home of the bride's parents, Mr. and Mrs. S. F. Jones, Bishop C. E. Jones performing the ceremony.

The people met the following evening and tendered the young couple a bundle shower. Many beautiful and useful presents were given them, and all wished them a long and happy voyage over the sea of life.

KANARRAVILLE.

Kanarra, Utah, July 20, 1915.
John Kinsley is here spending a few days, the guest of Bishop Berry.

Addley Wood and Lem Adams left town today bound for Idaho in search of employment.

Mrs. Eva Reeves returned home from Salt Lake last Friday, where she has been for a month undergoing two operations, only two weeks apart.

Dr. H. E. Wright, an eye specialist of Salt Lake City is located in Cedar City for a few days and can be found at the home of Herbert W. Webster until the 27th inst. Attention is directed to his card in this issue of The Record.

Mr. and Mrs. R. G. Williams will be home today from Salt Lake, where Mrs. Williams was operated on for appendicitis and other complaints.

The 24th of July will be celebrated here in a rousing way. An invitation has been sent to New Harmony to join us, and a good time is assured.

Sam Ford and family have gone to the mountain for an outing, and to enjoy the good, cool air. Sam has bought the John Reeves ranch.

Mr. and Mrs. W. R. Davis and Mr. and Mrs. Henry Pollock and children, returned Monday from the mountain, where they had spent the previous week.

Mr. and Mrs. Will Reeves have moved to their mountain ranch today; also Mr. and Mrs. L. J. Williams accompanied them. The men folks intend spending some time prospecting for coal.

NADA.

Nada, Utah, July 21, 1915.
Mr. Maybray has sold his relinquishment to a gentleman from California.

Henry Linderman, who has been working at his trade of carpentry, in San Bernardino, returned Wednesday.

Ben Mattson went to Milford Friday, where he has work running a traction plow.

J. M. Woodhouse returned Sunday to be ready to irrigate on Nada experiment farm Monday.

Wm. W. Butler is at home for a short stay—always too short, all around, as he is always warmly welcomed.

Mrs. L. A. Culmsee, Elvera and Carlton went to Salt Lake Tuesday evening to take in the wonders of the Wizard's carnival. They will also consult an oculist there.

C. A. Zillgitt shipped a car of household goods and stock from Ingleswood, California, to Nada last week. He has been making record time, having already unloaded, put up a house and barn, and has had several big brush fires. His brother, G. O. Zillgitt, is with him at present, and we hope he will decide to remain.

BUCKHORN NOTES.

Buckhorn, Utah, July 16, 1915.
Mr. and Mrs. William Rowley went to town yesterday on business.

Mrs. M. A. Skinner has been very sick since the 4th inst., but is much better now.

Nephi and Aaron Edwards, Wilford Gurr and Philo Edwards have all gone to Circleville to obtain work.

Mr. and Mrs. Lawrence Skinner have been on the Beaver mountains the past week. They report having had a good time.

Mr. Pratt, Mr. Nickles of Salt Lake and Mr. Robinson and Mr. Keith of Fillmore were here this week on land business.

Mr. and Mrs. Clark, Mrs. Stevens and Mrs. Lyman, all of Parowan, were here last Sunday in the interests of the Relief Society, a limb of the Church which will soon be organized here.

Professor A. N. Winsor of the A. C. was in Cedar Wednesday and Thursday on business connected with the B. A. C. farm work, and the pump well that is being equipped for supplying water for a portion of the dry farm.

RAINS CHANGE 24TH PROGRAM

Morning Services Will be in the Tabernacle Instead of the Open Air as Planned.

OLD PEOPLE TO LUNCH IN LIBRARY AUDITORIUM

Grounds Will Nevertheless be Open for Any Desiring to Eat Their Lunch on Spacious Lawns.

The story condition of the weather has made some changes necessary in the program for the celebration of Pioneer Day tomorrow. The morning services will be held in the tabernacle instead of in the open air at the B. A. C. grounds as originally planned, and the old people will be banqueted in the Library auditorium instead of under the trees at the school. The further entertainment of the old people will also be conducted in the tabernacle during the afternoon.

The procession will commence at 9 a. m. at the City hall as originally planned, and it is expected that a sufficient number of automobiles will be available to transport the old people participating in the procession.

As to how many of the townspeople will partake of their lunch upon the B. A. C. campus will doubtless depend very largely upon the condition of tomorrow's weather.

During the afternoon there will be an abundance of good sports, and the indications are that the day will pass very pleasantly. A grand ball in the evening will of course be included in the festivities.

All owners of automobiles are requested to decorate their cars and report to S. J. Foster, who will utilize them in connection with the procession. It is expected that there will be a number of good floats in the procession.

MOORE PLAYERS GIVE EXCELLENT PERFORMANCE

The entertainment given in the Ward hall last evening by the Frederick Moore Company of players, consisting of three short vaudeville acts, was exceptionally good. Far better than the average theatrical performance that penetrates this far into the interior. All the pieces were highly entertaining, and the performers evinced exceptional talent and much experience on the boards.

Tonight the play "Within the Law" will be presented, and judging from last night's performance, The Record has no hesitancy in commending the company to the patronage of local people. The attendance last night was slim, due partially to the usual tendency to small attendance during the summer season, and partially to the fact that the troupe was unknown to us. With the reputation of the players now established, they should play to a much better house tonight.

Makes Some Record.

Trehanne Jones made a trip into Washington county the first of the present week, for the purpose of demonstrating the 1916 Buick car. He reports that he has some good, live prospects in the Dixie country. Mr. Jones states that he made the run from Cedar City to St. George, around by Hurricane and back home, besides demonstrating about three hours in St. George, all on seven gallons of gasoline, which is a remarkable record, particularly for a six cylinder car, in point of economy in the consumption of fuel. He had as passengers on the trip his wife, U. T. Jones and Emerson Jones and a Mr. Ashton of Salt Lake, making five in all.

Ought to Be Pushed Through.

Supervisor Palmer gives it as his opinion that automobiles can now penetrate Coal Creek canyon as far as the Jones coal mine without difficulty. This being the case it ought not to require a great deal to continue the road onto the top, giving pleasure seekers access to the numerous pleasure spots that this delightful region affords. It is understood that this matter will shortly be considered by the local commercial club and we trust that some means may be devised of pushing the road on to the summit of the divide.

BAKER LUMBER CO. INCREASES CAPITAL

Changes Name and Announces Association With Geo. E. Merrill Co. of Salt Lake.

An announcement of interest to some of our readers, and especially to the building fraternity, has just been made by J. S. Webb, manager of the Lund yard of the Baker Lumber Co. Mr. Webb informs us that the Baker institution will in the future be known as the Bonneville Lumber Co., and that in connection with the change of name, the Baker-Dornberg interests, while retaining their investment in full in the enterprise under the new name, have materially increased the capital and scope of the operations of their company by admitting into their organization as co-owners with them the Geo. E. Merrill Company of Salt Lake City, the Merrill Company being a group of investors who are already interested in other similar lumber yard investments in the Inter-Mountain country.

The company under the new name preserves the same active organization and the general management will remain as heretofore, but coincident with the adoption of the new style of firm name, the organization proposes to introduce some important features of policy and operation along the most progressive lines.

Mr. George E. Merrill, who becomes president of the Bonneville Lumber company has been identified with the wholesale and retail lumber business in Utah and Idaho for many years past, and is a pronounced advocate of the idea that business institutions of today are primarily public service corporations, whose policies and methods must be genuinely helpful to their customers and open to the closest scrutiny.

The announcement herein set forth is taken to indicate some marked changes which are likely to occur in the building material business in the Inter-Mountain country, the tendency apparently being toward large organizations with absolute recognition of the dependence of business institutions on the good will and approval of the public.

New Achievement in the Moving Picture Field.

Two ingenious developments in the art of motion-picture projection have recently been made which may add somewhat to the spectators' pleasure as well as broaden the photoplay field. Each achievement, while in a manner related to the other, is different both in purpose and means of execution. One makes it possible to show a film in a sun filled room, while the other enables pictures to be displayed in open air at night under the full glare of powerful electric lights. Both methods are fully described in the August Popular Mechanics Magazine.

A New Name.

Papa, mamma and their six year old daughter were returning from a fishing trip. As they drove into a clear, sparkling stream, papa unfastened the crupper straps and bridle reins so that the horses could drink. When the horses had drank their fill, papa put the bridles on and climbed into the wagon. The little daughter called to him excitedly, "O, Papa, dear, you haven't fastened the tail bridles."

Typewriters to sell or rent at reasonable prices. Enquire at Record office.

Persons having rooms to rent or houses to rent or sell will find it to their advantage to report same to M. H. DALLEY & SONS CO.

Coppin & Company have the contract for wiring the new home of M. F. Higbee which is now in course of construction.

The smoke stack of the B. A. C. heating plant has been raised 25 feet higher than the previous mark, which will greatly increase the efficiency of the plant.

It is learned that the mining of coal is being resumed. This is wise, as it will give those desirous of making sure of their winter's supply of fuel an opportunity of doing so before the fall rush begins.

And now look out for flies! So far this season we have not been troubled very much with this pest, but now every bit of rubbish and filth, moistened with the rain, will become a culture spot for them. Destroy these breeding places and you destroy the flies.

NEW SPRINKLER LAYS THE DUST.

Arrived from St. George Last Monday and Has Since been Doing Good Duty on Streets.

The receipt here last Monday of the new street sprinkler being purchased by local business men, and its subsequent use upon Main street, marks one more step forward on the part of Cedar City. With the steady increase in traffic upon the principal streets, and the absence of street pavements, the dust nuisance reached a point where it was no longer tolerable, and the business men arose to the situation by subscribing liberal amounts towards a fund for the purchase of the wagon, which is a modern one in every respect, having a 600 gallon capacity steel tank and all conveniences, as manufactured by the Studebaker company.

The improvement to the streets effected by the sprinkler is very noticeable, and will increase in a short time when the dirt gets thoroughly packed. The purchase of this sprinkler reflects credit on the business men in particular and the town in general.

Logic in Speedway Design.

Five worlds records were established without a death or accident occurring when Chicago's new speedway, a two-mile board oval, was opened with a 500-mile derby on June 26th. In spite of the unprecedented speed, averaging 97.6 miles an hour, which was attained by the winning motor car, at no time was there an excuse for a sense of danger to obsess the minds of the spectators. The August Popular Mechanics Magazine says:

"The track is built for speed and safety, and the results of this race serve to uphold its design as logical and to indicate that same motor racing is mechanically possible. On this course a race instead of being a battle between tires, is a contest between finely tuned motors. This was responsible for the establishing of a new racing record won by an English car which completed the distance without making a stop and finished fourth after averaging 95.06 miles an hour. The machine entered with its gas and water tanks full and coasted across the finish line with them dry. Its pilot did not once take his hands from the wheel throughout the entire race and experienced no tire trouble whatever.

Present indications are that the second cutting of lucern will be about an average crop.

Mrs. Angus Bulloch, who was very ill the first of the week, is now on the road to recovery.

A large number of our people leave today and tomorrow to spend the 24th and Sunday in the cool atmosphere of the mountains and canyons.

The annual meeting of the Cedar Sheep Association will be held next Monday evening. It is expected that a liberal dividend will be declared at that time as usual.

R. J. Bryant and son Charles have the contract for painting the College buildings inside and out. The work is to be completed prior to the opening of school.

The Cedar Mercantile & Live Stock Company's store was closed Wednesday for stock-taking, preparatory to the holding of the annual meeting and rendering of the report.

Miss Belle Williams has recently been added to the clerical force of the Cedar Mercantile & Live Stock company. It is stated that she is to replace one of the other lady clerks who for some unknown(?) reason will retire in the near future.

Daniel Stones of Paragonah was a passenger on the north stage this morning and spent a few hours looking over the city and renewing former acquaintanceships. He stated that this was his first visit to Cedar for about fifteen years, and the town and intervening country had grown almost beyond his recognition.

Goddard & Ashdown, the wood men, cannot keep up with the orders that come pouring in for wood. Their saw is located above the Woolsey ranch, and they have customers at Cedar, Hamilton's Fort, Kanarra, and nearby ranches. The convenient form in which their wood is furnished has induced a return from coal to wood for summer use, as it is better on the stove grates and does not heat up the buildings nearly so much.

LOCAL JOTTINGS.

The Record, only \$1.50 per year.

R. J. Williams, Sr., of Kanarra, was a Cedar visitor Tuesday.

Wayne Davis and Will Williams of Kanarra, are in Cedar today on business.

Mrs. P. N. Wilkinson left for Kanarra today to spend the 24th with her parents and other relatives.

The rain of the past two or three days insures the maturing of dry land corn, report a number of our farmer friends. It seems that it came just in time.

T. A. Thorley has decided that it pays to have his sheep range fenced on the mountain and is this year putting up about seven miles of fence, which will still be extended in the future.

The street sprinkler can now take a rest for a day or two. The weather man has taken charge of this work for the present, and has been much more liberal in regard to the area covered than the street sprinkler is.

Lewis Hills, a veteran banker of Utah, and for many years the president of the Deseret National Bank at Salt Lake, died last Wednesday at his summer home in the mouth of Big Cottonwood Canyon, at a ripe old age.

We learn today as we are going to press of the opening of a new shoe shop in the building formerly occupied by the Home Meat Market, but are unable to give the name of the proprietor.

Contractor Burton took a run over from Milford Tuesday last and looked over the work being done on the new school building. He expressed himself as being satisfied with the way things were going.

James Middleton came in from the station last evening with the seven passenger Cadillac that he recently took to Salt Lake City for repairs. He states that the road on this end of the route is very muddy and heavy while on the Lund end it is dry and dusty.

It is expected that the adobies will all be completed Monday for the making of the brick for the new school building. One kiln has already been built and the brick will soon be laid in the walls. By the time these are all consumed the new kiln will be ready for opening, so that there will be no wait.

Another "note" is said to be about ready for dispatch to Germany, in which the Imperial government will be informed that further loss of American lives as a result of German submarine warfare in contravention of the principles of international law will be regarded as "unfriendly act." How could the Washington government be so inconsiderate!

L. L. Williams, who left Cedar City a couple of weeks ago with the avowed intention of going to Gold Field, Nevada, and thence on to the Argentine Republic in South America, returned Thursday after getting as far as Gold Field. He found the weather decidedly warm there, but strangely it gave him "cold feet" on the Argentine proposition.

It is refreshing to find a gentleman with progressive ideas such as were shown by Albert Lundell the other day when he walked into the Bank of Southern Utah and asked to have \$5 transferred to the account of the street sprinkler, which he says is one of the best investments ever made by the people of Cedar City. We are waiting for a few more public spirited citizens like Mr. Lundell.

Joseph Peak of Kayville and Chas. M. Radley of Salt Lake City, are in Cedar visiting Elder Trehanne Jones, with whom they became acquainted in South Africa when he was a missionary in that country and they were residing there. "We are just here to see if Elder Jones is living up to his teachings when he was in the mission field," they said to The Record scribe today.

The plant of the Cedar Electric Co. has been shut down during the day time for the past two or three days while one of the tunnels for the race is being cemented in a place or two where leaks had developed. It is expected that the plant will be in operation again some time this afternoon. In the mean time people requiring power are forced to substitute as best they can.
